

WARNING ---- Open with Care!

Failure to heed all warnings could result in severe personal or bystander injury.

Only use this product for the purpose of which it is intended.

- When removing the Dome from the carry/storage bag be careful, because it automatically unfolds rapidly.
- Do not open Dome in a confined area or space less than 10 feet square.
- Do not open Dome with bystander within 10 feet.
- Always secure to ground or other suitable anchor. Fill floor with sufficient sand or other ballast as wind may appear and blow shelter away. Collapse and fold down shelter if wind is excessive.
- Keep all flame and heat sources away from the fabric.
- This product is made with flame resistant fabric which meets CPAI-84 specifications. This fabric will burn if placed in contact with any heat or flame source.
- This product does not offer complete sun protection.

- **CLEANING AND CARE OF SUN DOME:**

- Do not clean with any chemicals as this may render the flame retardant properties ineffective.
- Only hand clean with a mild soap and water then let air dry. Never use machines.
- Store shelter thoroughly dry and free of debris. Store indoors in dry, dark cool place.

Folding Instructions

1. Pick up Dome from side, lifting Dome bottom with hands 2 feet apart, grasping all 4 rods. Then bow bottom towards you.
2. Use your feet to hold other loops on ground. Then start moving hands toward ground, bending the Dome floor.
3. While moving your hands toward the ground, twist loops 1/2 turn, left over right.
4. Continue moving hands and twisting until loops lay flat on ground.
5. Align loops and hold flat with feet. (Note: Loops will try to unfold.)
6. While stepping on loops, grasp top of Dome, pull and twist 1/2 turn toward yourself, left over right.
7. Align loops and hold flat with hands. (Note: Loops will try to unfold.)
8. Pick up and insert into bag. (Note: Loops will not be aligned.) Start zipping bag closed and loops will relax and align into place.

Size: Height = 36" X Floor diameter = 47"
